

The All-Inclusive Cyber Solution for Nonprofit Organizations

Cyber Security Software

Carefully designed to provide a non-invasive yet robust security posture for nonprofits.

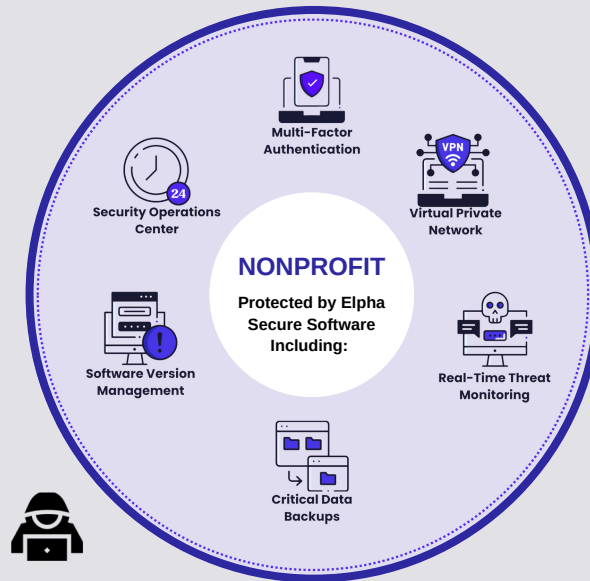

Cyber Insurance

Market-leading coverage with fairly priced risk transfer from "A" and "A+" rated carriers.

An evolved approach to an evolving problem brought to you by First Nonprofit.

10-Day Free Trial

Cyber Attack

Test drive these cyber mitigation tools before you purchase.

Coverage That Can Save The Day

Extortion Loss

If ransomware forces you to pay a ransom to restore access to your system, we'll reimburse you for that payment.

Data Restoration

When a cyber attack results in stolen or compromised data, we'll pay to restore your data so you can minimize downtime.

Business Interruption

We help cover the costs of the income you lose and expenses you incur after an incident, so you can pick up where you left off.

Cyber Crime

We'll reimburse you for a fraudulent funds transfer, which means your business won't have to absorb the loss.

Hardware Replacement

We'll replace permanently damaged or infected physical devices to get you back on track with the tech you rely on.

Network Security & Privacy Liability

We help with costs arising from claims made against you, like legal fees and settlements to affected customers.
